## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election of Species 1 (claims 1-8) in Paper No. 8 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

### ***Allowable Subject Matter***

1. Claims 1-8 are allowed.

The prior art of record fails to disclose all the combination of a semiconductor device structure recited in the base claim 1. Specifically, the prior art of record does not disclose the combination of an integrated circuit inductor structure comprising: a resistive layer, not etched under the planar winding; a dielectric layer between the winding and the resistive layer; and discontinuous conductive sections, individually parallel to a closest portion of the winding, and electrically connected to ground and to the resistive layer.

### ***Conclusion***

2. This application is in condition for allowance except for the following formal matters:

- figures 1-3 should be designated by a legend such as --Prior Art because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action

Art Unit: 2814

to avoid abandonment of the application. The objection to the drawings will not be held in abeyance; and

- the non-elected claims 9-27 need to be canceled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
